

Build Smart in Powell.

We have significant concerns about Apartments that needs to be addressed before decisions are made.

Apartment proposals seem to be popping up in everyones backyard lately.
It is time to **organize a plan of action to stop unwanted development** in the city of Powell Ohio.
This is mainly focused on the multiple proposals that include apartments as well as density concerns.
Powell Ohio is a special place with a unique opportunity to stand out. Though business development, retail space and the right kind of housing we can build smart.
Mixed use living that includes **apartments is not aligned with the desires of residents.**

We are concerned with the added strain these high density developments will place on our infrastructure and schools, as well as the impact to home values and public safety.

Our hope is to work with the city of Powell and respect the city's desire to increase revenue. **We encourage the city to provide an open forum to directly deal with this concern as a whole vs individual proposals.**

Respectfully, Citizens of Powell
