

Expenditure Adjustments:

Appropriate:

1. The City continues to be involved in several ongoing legal cases, which have caused higher than anticipated legal expenses in 2017. The City has been receiving reimbursement from CORMA for one case, Golf Village North, LLC (USDC Action). This case had a large spike in activity in October which has caused us to request another appropriation to cover these legal expenses through the remainder of 2017. A total of \$60,000 is being requested. **\$35,000 from contingency and \$25,000 from fund balance.**

Correction, only \$18,400 will come from contingency plus the \$25,000 from the fund balance requested on December 5th. So, another \$16,600 is needed to make a total of \$60,000 available for legal fees.

General Fund, Legal fees	\$	16,600.00
