Want to take advantage of what your Chamber can do for you AND your Business - There's an APP (or two) for THAT!

Download these Chamber Apps for even greater access to the benefits of Chamber Membership

MyChamberApp is an App for the Entire Powell Community! Customers (and potential customers) that download this app, can search for your business by name, category, or location! When they tap on your business name they will see your location on a map (and can request directions) your address, telephone number, and a link to your web site. It also gives them the option to share your business on Facebook and Twitter.

App users can also see a community calendar of events, AND any HOT DEALS your business would like to promote.

MyChamberApp gets its information from our Chamber Software. Any information you update when you log into your Chamber account will automatically be updated on the app (it may take up to 24 hours)

Just for Chamber Members the memberplus app

This app allows you as a Chamber Member to do anything on your smart phone or ipad that you could do by logging into your Chamber Account on the computer.

You can access the Member Business Directory, see and register for upcoming events, add a hot deal (that will also appear on MyChamberApp) add a job posting, and even post messages in the Powell Chamber Community feed.

Be sure to approve the Push Notifications to receive updates and reminders from the Chamber
