

My name is Maggie Carter and I am in the fourth grade at Wyandot Run Elementary School. I am interested in learning more about chickens and egg production. I would like to raise some of my own chickens at home but currently, they are not allowed in Powell. I am gathering signatures to present to the city of Powell to ask for a one location variance or exemption to the ordinance that prohibits poultry within any residential zoning district. My hope is that eventually hens will be allowed to be raised within the entire Powell city limits. If approved by the city, I will be contacting the homeowner's association asking for the same request.

I agree to research and learn about taking care of chickens, protect them from wildlife as best as I can, and feed and water them regularly.

Please sign below if you agree and support the following:

- Allow up to 6 hens (no roosters) in an enclosed coop and pen behind our house at 262 Halverston Rd.
- You agree to contact my parents first if there any issues or complaints with the raising of the hens and try to resolve the issue without contacting any government authority
- Free eggs will be available to any neighbor who requests, if available

|    | Signature | Printed Name      | Address                    | Phone        |
