

Major Revenue Information

Income Tax

Description:

The City of Powell has a municipal income tax rate of .75% or (3/4th of 1%). The municipal income tax applies to residents' earned income, including net profits of local businesses. Residents who work in communities other than Powell are given credit (up to a maximum of .25%) for taxes paid to the communities in which they work. The majority of the City's residents work outside the city limits of Powell.

The City receives municipal income taxes in three ways: withholdings remitted by employers; filings by individual residents of the City; and the net profits of businesses located in or doing business in the City. The City has mandatory filing requirements for all residents and the filing deadline is April 15th.

Relationship to Budget:

The income tax is the largest source of revenue for the City for all budgetary (and appropriated) funds. It is deposited entirely into the General Fund.

Real Estate or Property Tax

Description:

The real estate tax is a tax levied on all property in the city limits of Powell. The City experiences appraisal growth because every six years the County Auditor reappraises all the county's property with a small update in year three.

The City has a fixed general fund real estate tax millage of 1.20 and a dedicated general obligation bond retirement fund millage of 2.90 that fluctuates based on the current principal and interest due. No changes can be made to the general fund millage rate without a vote of the residents. The residents would also need to vote for any new dedicated debt millage.

Relationship to Budget:

The real estate tax makes up a significant portion of the City's revenue for all budgetary (and appropriated) funds. It is usually one of the City's top five revenue sources. The dedicated real estate tax is restricted to pay only debt service on a particular debt obligation, and therefore the dedicated real estate tax is deposited into the appropriate debt service fund. The general fund real estate is deposited into the general fund.

Statistical Information:

The City receives estimates from the Delaware County Auditor's office for the real estate taxes in August or September of each year preceding the tax collection year. In 2017 for 2018 collections, the City received its every-six-year appraisal change in net assessed valuation, there was an overall increase in valuation throughout the County. The next triennial update will occur in 2020 for 2021 collections.

Rates of Taxation

IN DELAWARE COUNTY FOR TAX YEAR 2016

In the presence of law, I, Jon Peterson, Treasurer of Delaware County, Ohio do hereby give notice that the number of mills levied on each dollar of property issued for taxation within said county for the tax year 2016 is as follows:

2016

No.	District	Library	County	Township	Schools	JVS	Corp.	Total	Eff Rate	Ag/Res	Eff Rate	Com/Ind

Tax-Increment Financing (TIF) Real Estate or Property Tax

Tax-Increment Financing (TIF) is financing secured by the incremental increase in tax revenues, resulting from the redevelopment of an area. The City has three TIF areas, one called the Downtown TIF, which encompasses approximately 300 acres; another called the Sawmill Parkway Commercial TIF, which encompasses approximately 260.65 acres; and the third is called the Seldom Seen TIF, which encompasses approximately 39.02 acres. The net assessed valuation of the year of inception is the baseline for the TIFs. The baseline for the Downtown TIF is 2005, the Sawmill Parkway Commercial TIF is 2011, and the Seldom Seen TIF is 2015.

Relationship to Budget:

The TIF real estate is deposited into the assigned TIF fund.

Statistical Information:

The City receives estimates from the Delaware County Auditor's office for the real estate taxes in August or September of each year preceding the tax collection year. In 2017 for 2018 collections, the City received its every-six-year appraisal change in net assessed valuation, there was an overall increase in valuation throughout the County. The next triennial update will occur in 2020 for 2021 collections.

Gasoline Tax and Motor Vehicle License Fees

Description:

The gas tax is distributed to the City from the State of Ohio based on the number of vehicles registered in the City compared to the total number of vehicles registered in the State. State law has levied \$0.28 per gallon, with about 10.7% of total gas tax collections allocated to the cities. The City receives its allocated share on a monthly basis.

The motor vehicle license fees are distributed to the City from the State of Ohio on a different basis. For each passenger vehicle registered in the City, the State levies a fee of \$20.00, of which \$6.80 is returned to the City and the remainder is kept by the State. Delaware County and the City have levied an additional \$20.00. Of this, the City receives \$15.00 and the County receives \$5.00. The fees for other types of vehicles vary based on weight and type, but the same allocation methods are used.

The State of Ohio restricts how the money from these two revenues may be spent, and the City has no ability to change the rate or allocation formula for these fees and tax; only the State may do that. The City has not heard of any plans from the State of Ohio to make changes either to the rate or allocation formula.

Relationship to Budget:

The gasoline tax and motor vehicle license fees make up a significant portion usually in the top five of the City's sources of revenues for all budgetary (and appropriated) funds. The gasoline and motor vehicle license fees are deposited in three different special revenue accounts: Street Maintenance and Repair Fund, Municipal Motor Vehicle License Tax Fund and State Highway Improvement Fund.

Community Development Charges

Description:

Liberty Community Infrastructure Financing Authority (LCIFA) assets (consisting of various road and infrastructure improvements) were acquired. As part of the agreement, the LCIFA is required to collect, and remit to the City, the Community Development Charges for payment on the annual principal and interest costs for the City's outstanding general obligation bonds.

Currently, the LCIFA accounts for three outstanding debts. First, the 2002 debt that was refinanced in 2011; second, the 2008 debt that started out as a one-year note that was rolled until sufficient funds were available to pay both principal and interest; and third, the 2012 debt that was held by the developer.

Powell Community Infrastructure Financing Authority (PCIFA) assets (consisting of various road and infrastructure improvements) were acquired. As part of the agreement, the PCIFA is required to collect, and remit to the City, the Community Development Charges for payment on the annual principal and interest costs for the City's outstanding general obligation bonds.

Currently, the PCIFA accounts for one outstanding debt. The debt was financed in 2012 for debt that had been held by the developer.

The LCIFA is charging the maximum amount allowable (10.25 mills) to pay for the outstanding principal and interest costs. The mills cannot be reduced unless sufficient money is being collected to pay for all the outstanding principal and interest. The only ways to increase this revenue source are increased property values or developing remaining parcels.

The PCIFA is charging the maximum amount allowable (10.25 mills) to pay for the outstanding principal and interest costs. The mills cannot be reduced unless sufficient money is collected to pay for all the outstanding principal and interest. The only ways to increase this revenue source are increased property values or having the last parcel developed.

The LCIFA is a separate governmental entity and has its own financial statements. The PCIFA is also a separate governmental entity and has its own financial statements. A copy of those statements can be found on the Ohio's Auditor of State's web site, www.auditor.state.oh.us.

Relationship to Budget:

The community development charges make up a significant portion of the City's sources of revenues for all budgetary (and appropriated) funds, and usually are among the City's top five revenue sources. The debt associated with this charge is in a separate debt service fund called LCIFA Debt Service Fund or PCIFA Debt Service Fund.

Development Related Revenue

The City has three departments (Building, Engineering and Development) that work with developers, contractors and residents to inspect, review, plan and enforce zoning regulations. These services have a fee that is assessed based on the work being requested. The City publishes a schedule that lists the fee associated with each type of service. The City reviews the rates charged for development-related fees annually. The schedule is reviewed to make sure that allowed costs are being recovered.

The following categories are listed as development-related revenues:

Zoning Permits	Residential Building Permits	Additional Building Permits
Commercial Building Permits	Alarm Registrations	Sidewalk – Final Inspection Fees
Contractor Registration Fees	Engineering Plan Review Fees	Plumbing Inspections
Storm Water Operations Plan Fees	Zoning Plan, Filing & Review Fees	Commercial Building Permits/ Township
Exempt Plumbing Permits		Plan Review Fees

Relationship to Budget:

The development-related revenue makes up a significant portion of the City's sources of revenue for all budgetary (and appropriated) funds. It is usually one of the City's top five revenue sources. The majority of all development-related revenue is deposited into the General Fund, with some types being deposited into special revenue or capital projects dependent on the type of development.

Other Revenue

The City of Powell has many other revenue sources that, in some years, are significant to the yearly budget. Some of the other revenue sources are:

- **Local Government Fund** – The Local Government Fund (LGF) is the State of Ohio’s general purpose revenue-sharing program for local governments, including counties, cities, villages, park districts and libraries. The LGF has two components: (1) distribution to the county where each county has a formula for distribution; and (2) distribution straight to the municipalities. The LGF has a long, complicated history that has finally come to conclusion. In the 2018 state budget the LGF distribution was restructured, and the City anticipates continued decreasing revenue from this source. The LGF is deposited into the General Fund for general operating purposes.
- **Interest Earnings** – Interest earnings are a function of cash management. The City takes available cash and invests it at the current market rate. The City invests its monies according to its Investment Policy, which is based on policy examples from the GFOA. A summary of the investment policy is included in the Appendix of this document. Interest income is deposited into several different funds and is allocated based on the percent amount it had deposited on the last day of the month. Funds that receive an allocation are the General Fund, Street Maintenance-related funds and capital project funds funded by general obligation debt. The City continues to have sufficient funds to invest. However, the return on investments is still recovering from the financial crisis that occurred several years ago. The City projects having funds to invest, but only with a slow growth in the market on investment rates.
- **Inheritance (Estate) Tax** – The estate tax percentage charged increases as the size of the estate increases. The minimum taxable estate is \$338,333 at a 5% rate. The rate increases to 7% for estates valued in excess of \$500,000. The City receives 80% of the total collected and the remainder goes to the State of Ohio. Because of the volatility of this revenue, the City usually budgets only \$35,000 and the rest is utilized for one-time projects when the revenue is received. The State of Ohio passed legislation to eliminate the tax beginning in January 1, 2013. The City deposits these funds in the General Fund. The City may continue to receive funds for past years after January 1, 2013, but they are anticipated to be minimal. The City has not collected any inheritance tax since fiscal year 2015.
- **Grants** – The City sometimes is a recipient of federal, state or other types of grants. These revenues are segregated to a separate Special Revenue fund that is applicable to the grant. Grants are applied for but not reflected in the budget until the grant acceptance is received.

The City has numerous small revenue sources that assist in stabilizing the revenue sources of the City. Some of these small revenue sources include:

- **Parks and Recreation Programs** – creative programs that residents and non-residents may attend for a fee. These program fees are deposited into the Special Revenue Fund – Parks and Recreation Program Fund. Currently, the number of programs offered by the City is at its maximum due to space limitations. The rates charged are reviewed annually as fees are based on costs associated with the program and only minor increases are anticipated since little to no additional programs can be offered.
- **Police Fines** – fines assessed by the court and by the City for noncompliance of laws. These fines are deposited into the General Fund if assessed by the City or Special Revenue funds if assessed by the court. The majority of the rates are set by the State of Ohio and only the State can change the rate. At this time, no rate changes are anticipated for police fines, nor is it anticipated that the volume of fines will change.
- **Fingerprinting** – costs assessed by the City to process fingerprints for residents and non-residents for purposes other than police activities. These fines are deposited into the General Fund and an Agency fund. The majority of the rate is assessed by the Federal Bureau of Investigation or the State of Ohio. However, costs related to the City for processing the fingerprinting are included. Therefore, the City reviews the rates annually to make sure costs are being recovered. While minor increases in the rates are anticipated, the volume should remain fairly constant.

- **Franchise Fees** – the City receives cable and other utility franchise fees for the use of City-owned right of way. The State of Ohio administers these fees and has standardized the fees. Therefore, the State controls the rates for the franchise fees. These fees are deposited in the General Fund and the City does not anticipate any volume change.
