

**CITY OF POWELL
Ordinance 2018-30
Exhibit A**

Expenditure Adjustments:

Appropriate:

1. The City Clerk is requesting additional funds for codification services as a result of higher than expected fees stemming from the Zoning Code update that occurred earlier this year. Our codification service provider has agreed to reduce the price slightly due to them not communicating the large number of pages that required edits. Furthermore, the service provider has agreed, going forward, that if our services should exceed \$5,000 on an annual basis, they will notify the City Clerk prior to moving forward with additional codification to allow for the approval of supplemental appropriations if necessary.

General Fund, City Clerk, Operating Expenditures	\$	10,000.00
