

Age-Friendly Delaware County is a local initiative aimed at creating a community in which residents of all ages can lead happy, healthy lives. The Age-Friendly Delaware County process is based on a framework provided by the World Health Organization (WHO) and is part of a national network facilitated by AARP.

- The 2018 Age-Friendly Assessment was conducted with Delaware County residents aged 55+
- The respondents were randomly selected based on voter registrations and mailed surveys
- Based on the population of Delaware County ~400 surveys completed for the results to be statistically significant. Seven-hundred and sixty-six valid surveys were received with an excellent 51% response rate.

Each Age-Friendly community must focus on WHO's 8 Domains of an Age-Friendly Community.

- Topics on the survey (and in the report) cover a variety of health and well-being topics; eight domains included:
 - 1. Outdoor Spaces and Buildings
 - 2. Transportation
 - 3. Housing
 - 4. Social Participation

- 5. Respect and Social Inclusion
- 6. Civic Participation and Engagement
- 7. Communication and Information
- 8. Community and Health Services

These 8 domains guide the steps of the Age-Friendly Process and help determine which partners should be engaged in the planning and facilitation of the assessment and strategic plan.

- SourcePoint will now use the data to develop a strategic plan and work on strategies to improve aging in Delaware County
 - Questions about how to get involved with future projects and strategic planning should go to SourcePoint, Jackie Haight, <u>jhaight@mysourcepoint.org</u>
- DGHD led the assessment portion of the project and results, methodology, and assessment tool can be found at www.delawarehealth.org Under: Services->Plans & Data->Age Friendly
 - Questions about data in the report or further data analysis can come to DGHD, Abby Crisp, acrisp@delawarehealth.org

AGE-FRIENDLY PROJECT OVERVIEW

Age-Friendly Delaware County is a local initiative aimed at creating a community in which residents of all ages can lead happy, healthy lives. The Age-Friendly Delaware County process is based on framework provided by the World Health Organization (WHO) and is part of a national network facilitated by AARP. Each Age-Friendly community must focus on WHO's 8 Domains of an Age-Friendly Community. These 8 domains guide the steps of the Age-Friendly Process and help determine which partners should be engaged in the planning and facilitation of the assessment and strategic plan.

Age-Friendly Communities must also follow a five-year process in which year two focuses on a strategic assessment to gather data on the health, well-being, interests, and resources related to the 8 domains of an age-friendly community. The following report will provide an overview of the 2018 survey methodology and results.

DOMAINS

- 1: Outdoor Spaces and Buildings
- 2: Transportation
- 3: Housing
- 4: Social Participation

- 5: Respect and Social Inclusion
- **6:** Civic Participation and Engagement
- 7: Communication and Information
- 8: Community and Health Services

PROJECT TIMELINE

2018: Develop and conduct assessment of adults age 55 and older

2020-2021: Implement plan

SURVEY METHODOLOGY

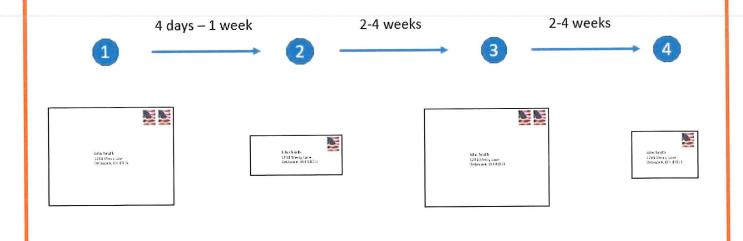

The Age-Friendly Delaware County Assessment began in 2018 with research of tailored survey designs, focus groups, data gap identification and an advisory group in order to determine the focus and design of the assessment process. Following these steps, the "My Life in Delaware County" survey tool was created. The survey tool included 75 questions divided between 7 sections. Cover letters, thank you/reminder letters and a reminder postcard were included in the mailings sent to residents during summer 2018.

All documents were sent to the Ohio Department of Health Institutional Review Board (IRB). Final documents underwent full review and the project was approved by the IRB.

A single sample frame was used to select which residents would receive the survey. Individuals were selected via random sampling from the Delaware County Board of Election Voter Registration Database. 1,500 registered voters age 55 and older were selected to become the sampling frame. This group was then sent a cover letter, survey and a prestamped envelope in which to return the survey. All sampled residents were then sent a letter as a reminder to return the survey or thank them for their participation. A few weeks later, a second survey packet was mailed to residents who had not yet responded. Lastly a reminder postcard was sent to any remaining residents who had not returned the survey. The timeline of mailings is shown below.

Returned survey responses were entered into a secure database. Data was cleaned and then analyzed using Stata software. A total of 766 valid surveys were included in the dataset for a response rate of 51%.

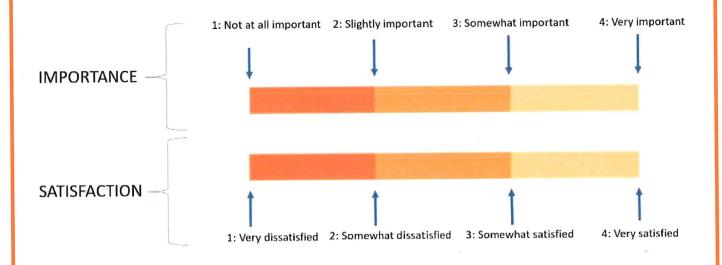

The full methodology report can be found at DelawareHealth.org/community-health-data

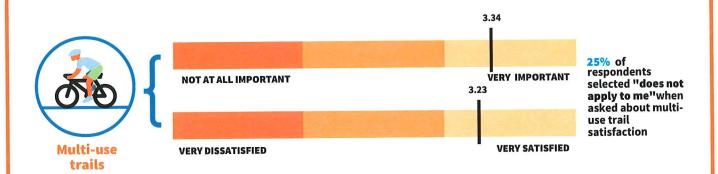

DATA INTERPRETATION

Bars are used to help interpret the importance and satisfaction questions that are throughout the report. Each bar is divided by the response options "Not at all important" to "Very important" and "Very dissatisfied" to "Very satisfied" depending on whether the bar refers to an importance or a satisfaction question. Each response corresponds to a value one through four. The values are then averaged to indicate how residents feel about the various topics and are included above each bar.

All satisfaction questions included the option "does not apply to me." This percentage is provided so that anyone interpreting the data knows how many individuals were not included in the satisfaction average.

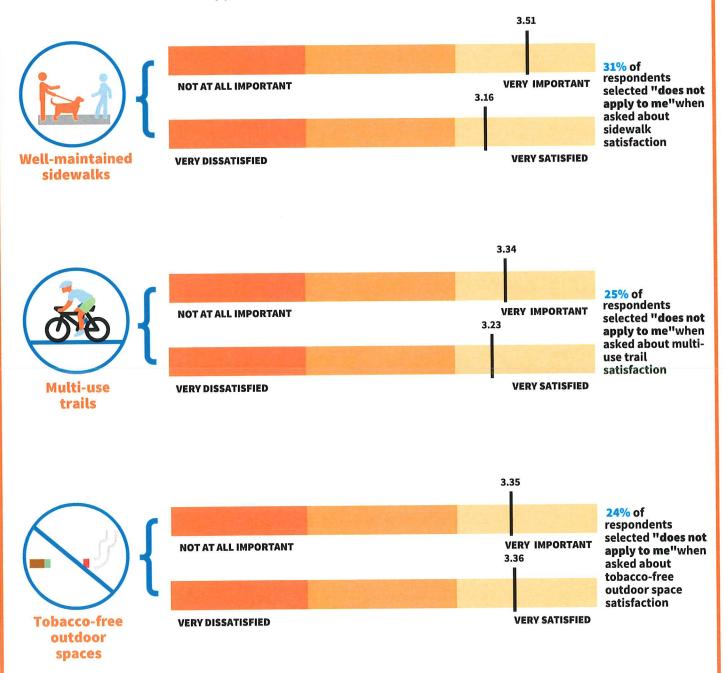

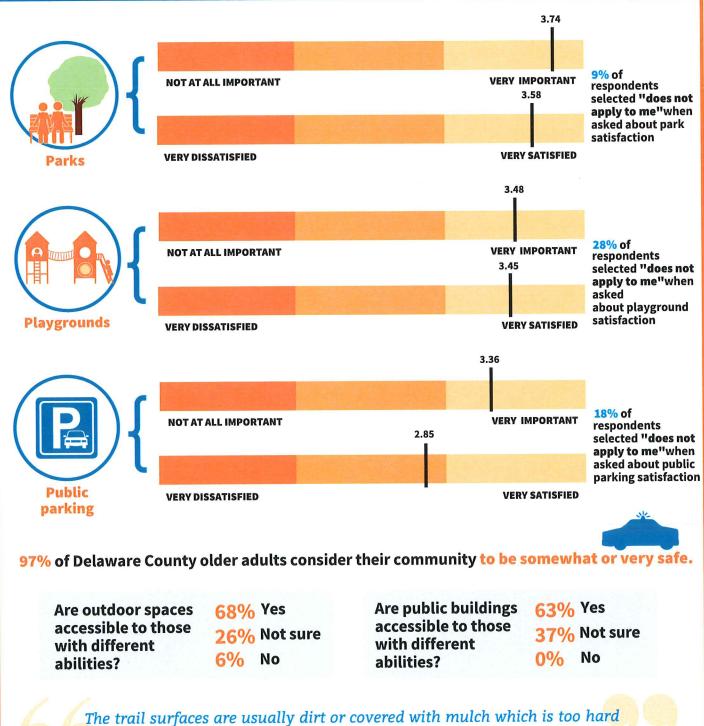

OUTDOOR SPACES AND BUILDINGS

This section covered Q1-Q15 on the survey tool and addressed topics relating to safe and accessible places for people to gather, public buildings and greenspaces. Questions included importance and satisfaction scales for various resources and are broken down below. Differences within each resource and among various resources should be considered. Many respondents did not feel that certain resources applied to them and this is noted along the side of each graphic. For a full breakdown of results, please refer to Appendix B.

OUTDOOR SPACES AND BUILDINGS

for maneuvering.

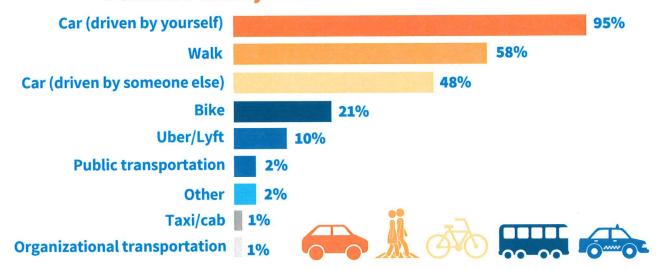

Parking often is not nearby, steps or stairs are unavoidable, need periodic seating to rest. Remember, many handicapped are not in wheelchairs or scooters.

TRANSPORTATION

This section covered Q16-Q19 on the survey tool and addressed topics relating to how older adults currently navigate their community and what methods they would prefer to utilize more often. For a full breakdown of results, please refer to the Appendix B.

Methods of transportation used by older adults in Delaware County

Olders adults identified biking and public transit as methods of transportation they wish they could utilize more.

We need more and safer bike lanes.

Bike more-connected paved paths.

Bike paths from neighborhoods don't exist.

Like to see rail transportation around the Columbus area.

I would use public transit more if it was available in the county.

HOUSING

This section covered Q20-Q25 on the survey tool and addressed topics relating to aging in place, as well as current and preferred housing types. For a full breakdown of results, please refer to Appendix B.

43% of Delaware County older adults need assistance maintaining the exterior of their home

42% of Delaware County older adults need assistance maintaining the interior of their home

76%Owned house

18%

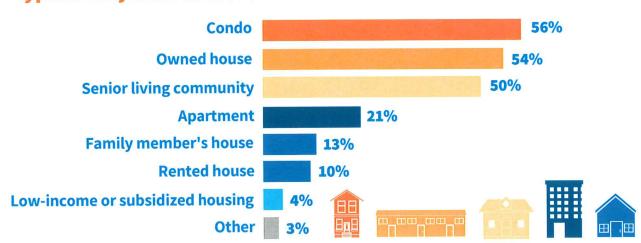

Owned condo

The majority of older adults find it important to stay in both their **community** and **current home** as they age:

89% find it important or very important to stay in their community

86% find it important or very important to stay in their current home

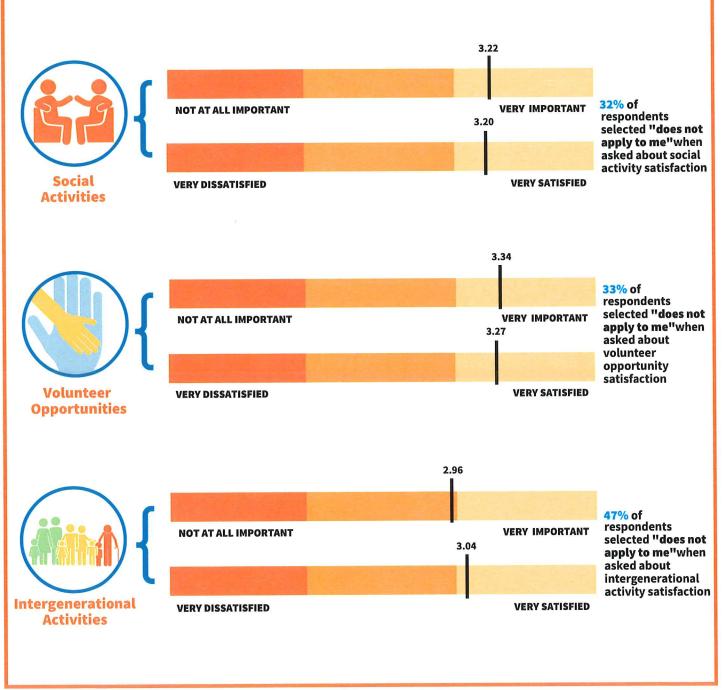

Older adults indicated they would consider the following housing types if they were to move in the future:

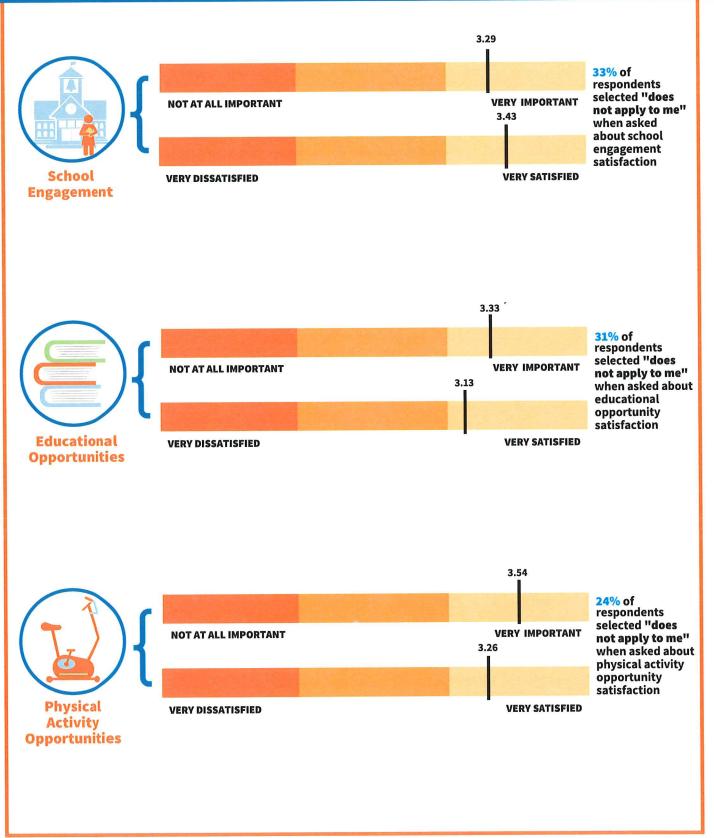

COMMUNITY ENGAGEMENT AND PARTICIPATION

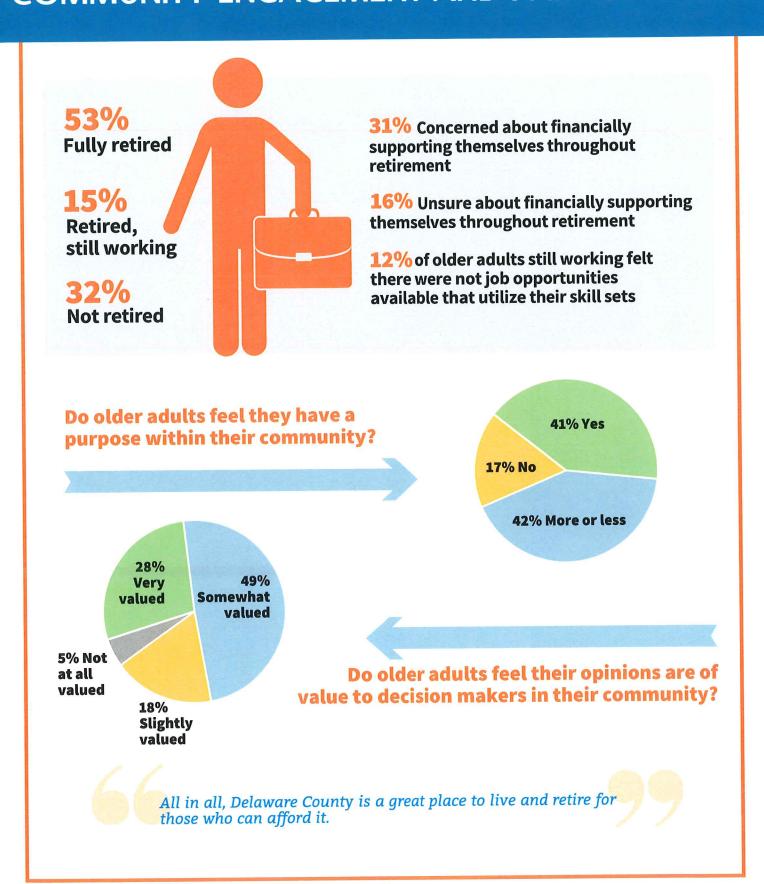

This section covered Q26-Q45 on the survey tool and combines the social participation, respect and social inclusion, and civic participation and engagement domains. Questions included importance and satisfaction scales for various topics and are broken down below. Differences within each topic and among various topics should be considered. Many respondents did not feel certain topics applied to them and this is noted along the side of each graphic. For a full breakdown of results, please refer to Appendix B.

COMMUNITY ENGAGEMENT AND PARTICIPATION

COMMUNITY ENGAGEMENT AND PARTICIPATION

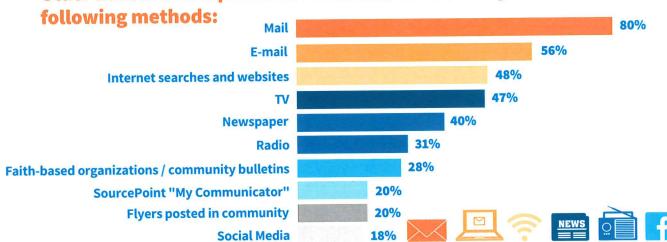

COMMUNICATION AND INFORMATION

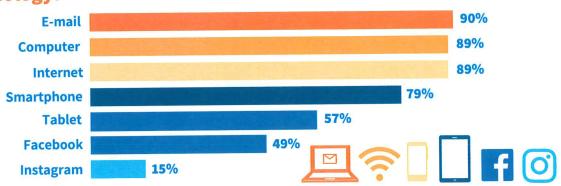

This section covered Q46-Q48 on the survey tool and addressed topics relating to technology and preferred methods of communication. For a full breakdown of results, please refer to Appendix B.

Older adults would prefer to receive information by the following methods:

Older adults reported using the following types of technology:

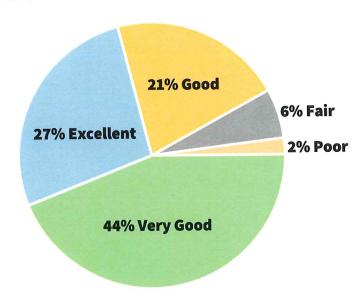

COMMUNITY AND HEALTH SERVICES

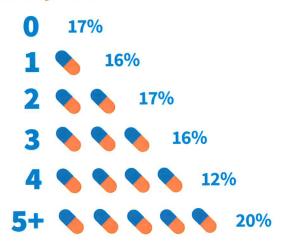

This section covered Q49-Q59 on the survey tool and addressed topics relating to health issues commonly affecting older adults. For a full breakdown of results, please refer to Appendix B.

In general, older adults reported their health status as:

Number of prescription medications taken by older adults:

Of those older adults currently taking prescription medications, 54% do not review their medications with a pharmacist every year.

18% of older adults have fallen in the past 6 months 18% are anxious about falling

Older adults reported they:

Do not eat out or bring home takeout: 11%
Eat out or bring home takeout 1-2 times per week: 59%
Eat out or bring home takeout 3+ times per week: 29%

69% of older adults exercise every day to

several times a week

3 out of every 100 adults have felt abused

8 out of every 100

older adults have been a victim of a financial scam

COMMUNITY AND HEALTH SERVICES

of Delaware County older adults are not aware of mental health services in their community

25% of Delaware County older adults are living with some sort of physical or mental limitation

Out of every 100 Delaware County older adults...

2 experience blindness or serious difficulty seeing, even when wearing glasses

6 experience difficulty doing errands alone due to a physical, mental or emotional condition

16 experience difficulty walking or climbing stairs

RESPONDENT DEMOGRAPHICS

This section includes socioeconomic characteristics of those who responded to the Age-Friendly survey. Demographic data can be used to divide the larger older adult population into relevant sub-groups and provide a description of the County's older adult population as a whole. For this survey, older adults were defined as those 55 and older.

Average Age: 68 years old

Race:

White 94% Other 3%

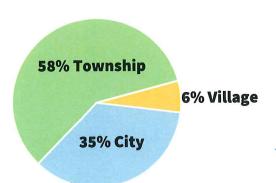

African American 2%

Household income breakdown for Delaware County older adults

Annual Income (\$)

Municipality

Education:

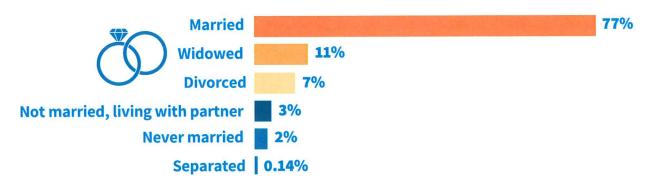

K-12th grade (no diploma) 2%
High school graduate, GED
or equivalent 14%

Housing

DATA EXAMPLES AND REQUESTS

The report is a synopsis of the overall data gathered from the 2018 Age-Friendly Assessment. In addition to the data provided in this report and its appendices, further data analysis can be conducted by the Delaware General Health District upon request. Cross tabulations (as shown below) can compare questions to other questions or to various groups of people. Any further analysis will be published on the Delaware General Health District's website.

Park importance by municipality

	Municipality			
Importance Level: Parks	Township % (n)	Village % (n)	City % (n)	
Not at all important	2% (9)	0% (0)	1% (3)	
Slightly important	4% (17)	5% (2)	2% (6)	
Somewhat important	15% (62)	14% (6)	10% (25)	
Very important	79% (328)	82% (36)	86% (216)	

Interpretation: 82% of those who live in a village said parks were very important compared to 79% of those who live in a township.

Current methods of transportation by age groups

	Age Grou	p (years)	
54-64 % (n)	65-74 % (n)	75-84 % (n)	85+
99% (281)	97% (267)	94% (110)	65% (28)
53% (151)	49% (135)	38% (44)	42% (18)
1% (4)	1% (3)	3% (4)	9% (4)
1% (3)	1% (2)	3% (3)	2% (1)
13% (38)	9% (26)	4% (5)	2% (1)
31% (89)	20% (56)	7% (8)	2% (1)
68% (193)	59% (163)	44% (52)	36% (15)
1% (2)	0.4% (1)	1% (1)	10% (4)
	% (n) 99% (281) 53% (151) 1% (4) 1% (3) 13% (38) 31% (89) 68% (193)	54-64 % (n) 85-74 % (n) 99% (281) 97% (267) 53% (151) 49% (135) 1% (4) 1% (3) 1% (3) 1% (2) 13% (38) 9% (26) 31% (89) 20% (56) 68% (193) 59% (163)	% (n) % (n) % (n) 99% (281) 97% (267) 94% (110) 53% (151) 49% (135) 38% (44) 1% (4) 1% (3) 3% (4) 1% (3) 1% (2) 3% (3) 13% (38) 9% (26) 4% (5) 31% (89) 20% (56) 7% (8) 68% (193) 59% (163) 44% (52)

Interpretation: 1% of those age 54-64 use organizational transportation compared to 10% of those age 85 and older.

DATA EXAMPLES AND REQUESTS

Annual medication reviews by number of prescription medications

	Number of prescription medications			
Annual medication review with pharmacist	1-2 % (n)	3-4 % (n)	5+ % (n)	
Yes	42% (104)	47% (96)	46% (68)	
No	56% (138)	53% (107)	53% (78)	

Interpretation: 53% of those who took 5+ prescription medications do not have an annual review with their pharmacist.

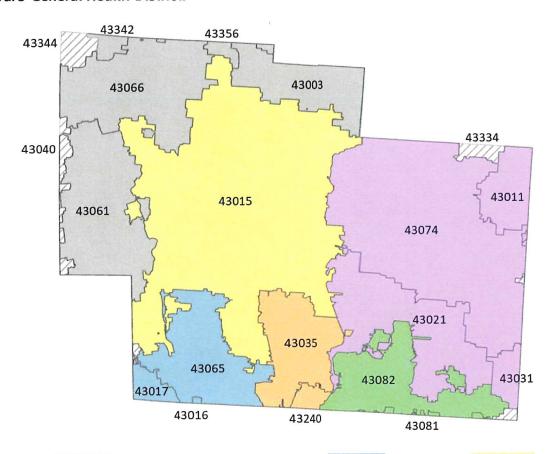

Preferred methods of communication by age groups

		Age Group	(years)	
Preferred method of communication	54-64 % (n)	65-74 % (n)	75-84 % (n)	85+
Mail	75% (215)	84% (224)	84% (113)	85% (35)
Social Media	24% (67)	19% (52)	9% (10)	2% (1)
Email	59% (167)	63% (168)	47% (53)	29% (12
Internet Searches/Websites	59% (169)	47% (125)	33% (38)	15% (6)
Faith-based organizations and community bulletins	30% (86)	28% (76)	26% (29)	24% (10
Community Flyers	24% (67)	19% (52)	14% (16)	12% (5)
Newspaper	35% (101)	43% (115)	46% (52)	49% (20
My Communicator	17% (49)	24% (63)	22% (25)	20% (8)
TV	46% (130)	47% (126)	50% (56)	56% (23
Radio	37% (106)	30% (81)	19% (21)	12% (5)

Interpretation: Popularity of receiving information via newspapers increased as age increased from 35% in those aged 54-64 to 49% in those aged 85+.

DATA EXAMPLES AND REQUESTS

thematic coding. Top results a				
	oor spaces (parks, trails, playgrounds, etc.) in your community are easily accessible to those that			
have different physical abilitie	s (wheelchairs, scooters, walkers, canes, etc.)?			
Response themes included:	Not accessible parking lots, issues with connections between destination and parking lot, unpaved surfaces make accessibility a challenge, especially on trails			
15. Do you feel that the publ (wheelchairs, scooters, walker	ic buildings in your community are easily accessible to those that have different physical abilities			
Response themes included:	Satisfaction overall, some specific places are less accessible, doors can be a challenge			
17. Are there any methods of	transportation you wish you could use more often? Please explain.			
Response themes included:	Would like to see more biking and efficient/convenient public transit (bus and rail)			
65. If you were to move out o	Delaware County, what do you think would be the primary reason for this move?			
Response themes included:	Finances, family, housing, climate			

Stay Healthy

SWALLOWING WATER IN SPLASH PADS & SPRAY PARKS MIGHT MAKE YOU SICK

- GERMS CAN GET INTO THE WATER THROUGH POOP COMING OUT OR WASHING OFF OUR BODIES
- SWALLOWING WATER CONTAINING GERMS CAN MAKE YOU SICK WITH DIARRHEA

- WATER IN SPLASH PADS IS TYPICALLY RECYCLED AND MIGHT CONTAIN GERMS
- WATER TREATMENTS LIKE CHLORINE DON'T KILL GERMS INSTANTLY
- PEE IN WATER WEAKENS THE GERM-KILLING POWER OF CHLORINE

DON'T SWALLOW THE WATER & DON'T SIT ON THE WATER JETS
KEEP PEE AND POOP OUT OF THE WATER

- STAY OUT OF THE WATER IF YOU HAVE HAD DIARRHEA
- TAKE LOTS OF BATHROOM BREAKS AND CHANGE DIAPERS EVERY 30-60 MENUTES AND CHANGE DIAPERS AWAY FROM THE WATER

DON'T DO THIS IN THE WATER

DO YOUR PART TO Stay Healthy

EVEN IN WELL-MAINTAINED POOLS SOME GERMS CAN SURVIVE IN PROPERLY CHLORINATED WATER FOR 7 DAYS

TO BREAK DOWN THE PEE, POOP, SWEAT AND DIRT BROUGHT INTO ATER BY SWIMMERS LEAVING LESS CHEMICALS AVAILABLE TO KILL GERMS

SIMPLE STEPS TO HEALTHIER SWIMMING:

- SHOWER BEFORE YOU GET IN THE POOL THE POOL IS ONLY AS CLEAN AS YOU ARE!
- AVOID SWALLOWING WATER THE POOL WATER MAY CONTAIN GERMS THAT CAN MAKE YOU SICK!
- TAKE LOTS OF BATHROOM BREAKS AND CHANGE DIAPERS IN THE RESTROOM, NOT POOLSIDE!
- STAY OUT IF YOU HAVE HAD DIARRHEA YOU MAY FEEL OKAY, BUT YOU CAN STILL GET OTHERS SICK!
