# Liberty Township Fire Annual Report 2020

### **MESSAGE FROM CHIEF THOMAS O'BRIEN**

On behalf of my Staff and our entire department, it gives me great pleasure to present to our community the Annual Report for 2020. As we all know, this year was marred by an outbreak of illness due to a pandemic event, the likes of which has not been seen for over 100 years.

The department and the community all pulled together to face unknown challenges. Together we came through it all and will continue to do so until a return to normalcy prevails.

### **OUR MISSION/VISION**

The Liberty Township Fire Department is here to protect the quality of life for our residents, employees and those who visit our community by providing the highest quality Emergency Service Management for Fire, Hazardous Materials, Emergency Medical Services and Disaster Emergencies. Preserve the quality of life through the effective and efficient delivery of emergency services in the assigned mission areas of fire suppression, rescue services, emergency medical support, and the mitigation of special hazards that threaten public safety. Prevent or minimize harmful effects of fires, medical emergencies, and other types of dangerous events through education.

Our vision is to focus on quality, cost-effective, all-risk service delivery. We are a responsive and progressive organization with a commitment to excellent leadership and professional accountability. We will achieve this through effective training, technology and adapting to the changing needs of the community.

### HIGHLIGHTS OF THE YEAR

- Received a SAFER Grant worth over 1.7 Million dollars for the hiring of six additional Firefighter Paramedics.
- Created a 10-year budget plan working closely with the Fiscal Office and Board of Trustees that enabled the hiring of additional firefighters, a long-term Capital Plan, and a re-negotiated contract with the firefighter's union to save the community over 2 million dollars aggregate in the next 10 years.
- Lowered the community's ISO rating form a 4 to a 3 rating, lowering insurance costs to the community.
- Designed and placed in service a new Water Rescue Trailer that allows for a faster and safer response to water incidents.
- Created and maintained an Incident Action Plan to assure proper and safe response to the Covid-19 epidemic.

# ACCREDITATION/ISO

Several fire department factors have a positive economic impact, including:

- Accreditation,
- ISO public protection class rating,
- Response time, and
- Levels of provided services (e.g., paramedic, hazmat, technical rescue, community risk reduction, etc.).

Accreditation is a comprehensive self-assessment and evaluation model that enables organizations to examine past, current, and future service levels and internal performance and compare them to industry best practices. This process leads to improved service delivery.

The Center for Public Safety Excellence's Accreditation Program, administered by the Commission on Fire Accreditation International (CFAI) allows fire and emergency service agencies to compare their performance to industry best practices in order to:

- Determine community risk and safety needs and develop a communityspecific Standards of Cover
- Evaluate the performance of the department
- Establish a method for achieving continuous organizational improvement

  Local government executives face increasing pressure to "do more with less" and
  justify their expenditures by demonstrating a direct link to improved or expanded services. Particularly for emergency services, local officials need criteria to assess professional performance and efficiency. The CFAI accreditation process provides a well-defined, internationally-recognized benchmark system to measure
  the quality of fire and emergency services.

The department began the process of accreditation in earnest in 2020. Going forward it is anticipated the department will be up for review and accreditation in late 2021, with the goal of becoming accredited in 2022. There are three components of the accreditation model that are being worked on, which will make our ability to service the community a continuous improve event.

#### **Writing a Standard of Cover**

A Standards of Cover (SOC) are those written policies and procedures that establish the distribution and concentration of fixed and mobile resources of an organization." These policies are relative to risk classification (Fire, emergency medical services, technical rescue, hazardous materials) and category (low, moderate, high, maximum).

### Strategic Plan review and update to include:

- Mission, vision, and aspirations.
- Core values.
- Strengths, weaknesses, opportunities, and threats.
- Objectives, strategies, and operational tactics.
- Measurements and funding streams.

#### **Writing a Self Assessment**

We will be able to correctly and appropriately: describe the current delivery system; appraise the current delivery system to identify strengths, limits, and opportunities for improvement; identify a plan to maintain and/or improve the current delivery system; and provide exhibits that can be used to: explain the findings of the description, appraisal, and plan process in more detail; and support the verification and validation process by the peer assessment team.

ISO evaluates many facets of our community's fire suppression and prevention efforts. Upon completion of ISO's assessment, a department is issued a Public Protection Classification (PPC) rating from 1 to 10, with 1being the best. Fire departments can often help reduce their communities' insurance premiums by improving their PPC; plus, it reduces the fire risk to people and property—and that is the mission of fire departments everywhere!

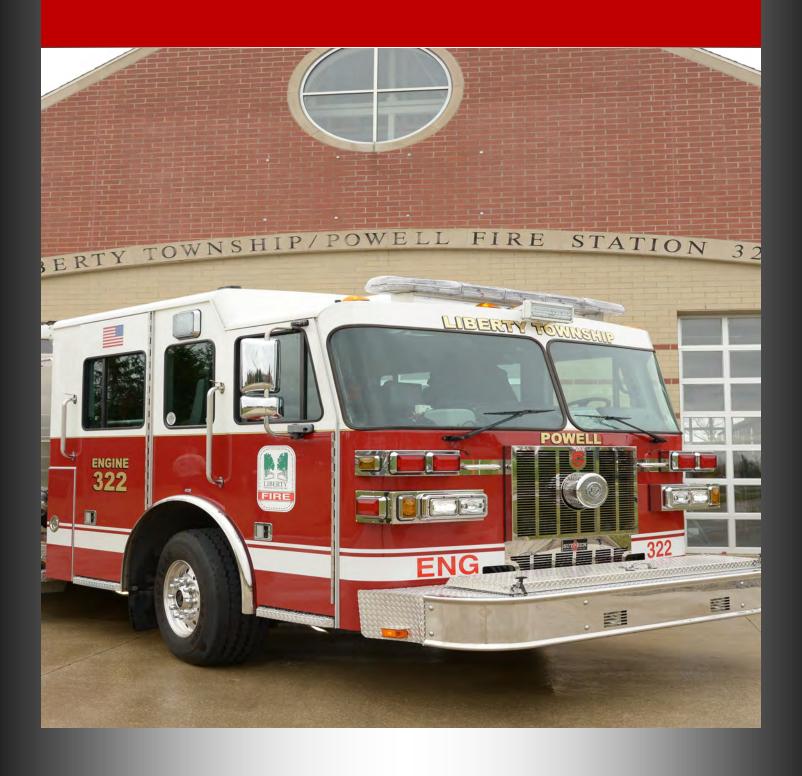

#### **OUR CURRENT ISO RATING IS A 3**

### Your firefighter/paramedics are currently certified in the following areas:

- BLUE CARD COMMAND
- ADVANCED CARDIAC LIFE SUPPORT
- RESCUE TECHNICIAN
- PRE-HOSPITAL TRAUMA LIFE SUPPORT
- PEDIATRIC LIFE SUPPORT
- INCIDENT SAFETY OFFICER
- FIRE/EMS INSTRUCTOR
- ADVANCED MEDICAL LIFE SUPPORT
- INTERNATIONAL TRUAMA LIFE SUPPORT
- FIRE OFFICER I,II,III,IV
- HAZARDOUS MATERIALS
- AND OTHERS....

# STATION DETAILS
